## The Tale of Two Towns

3D

*Can You Unite the Towns?*

Konohana and Bluebell villages were once the friendliest of neighbors. Then a huge dispute erupted between them...over FOOD! Both towns were certain that their cooking was the best in the world. This fierce food feud has transformed the two happy neighbors into the bitterest of rivals.

As a new farmer to the area, you choose which village to live in. Will it be Eastern-styled Konohana with its abundant fields of crops, or the animal-loving, European-styled Bluebell? Pick a home, build a thriving farm, and compete in a huge variety of festivals. Develop your skills enough, and you might even find a way to bring these two towns together once again!

### Features...

- Choose from two different villages, each with their own shops, villagers, and festivals!
- Choose to play as a boy or as a girl!
- Grow crops, raise livestock, woo a spouse, and start a family!
